### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The claimed invention provides for an apparatus with a segmenting means for segmenting data into frames, and then buffering the frames into a buffer for transmitting by a transmitting means. A controlling means receives parameter data from the transmitting and segmenting means for computing a high and low watermark value so that the data buffer maintains the number of data frames in the data buffer to be between the watermark values. The controlling means receives a timeout value of a retransmission timer and the size of the largest data frame that may be transmitted. A transmit delay time is computed from the timeout value and a largest data frame is calculated to pass to the transmitting means. The controlling means receives a coding scheme and a number of allocated transmission slots as well to calculate a transmit rate. Using these inputs the controlling means determines a high watermark value for the buffer.
2. The closest prior art of record is Bauer which discloses a fragmenting buffering and transmission means. Bauer maintains the length of the queue using upper and lower bounds that depend on the length of the queue. Bauer does not teach or suggest teaching a controlling means receives a timeout value of a retransmission timer and the size of the largest data frame that may be transmitted. A transmit delay time is computed from the timeout value and a largest data frame is calculated to pass to the transmitting means. The controlling means receives a coding scheme and a number of allocated transmission slots as well to calculate a transmit rate. Using these inputs the controlling means determines a high watermark value for the buffer.

Art Unit: 2458

3. For these reasons, in conjunction with the other limitations of the independent claims, puts this case in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to AFSHAWN TOWFIGHI whose telephone number is (571)270-7296. The examiner can normally be reached on Monday - Friday 8:00 A.M. to 5:00 P.M..
